

PECB Certified ISO 55001 Foundation

Gain a clause-by-clause understanding of ISO 55001 requirements for an asset management system (AMS).

Why should you attend?

This training course is designed to help participants understand the fundamental concepts and principles of an asset management system (AMS) based on ISO 55001. By attending this training course, participants will learn about the structure and requirements of the standard, including asset management policy, top management’s commitment, internal audits, management reviews, and the continual improvement process within the AMS.

After attending the training course, you can sit for the exam and, if you successfully pass it, you can apply for the “PECB Certificate Holder in ISO 55001 Foundation” credential. A PECB Foundation certificate demonstrates that you have knowledge of the fundamental concepts, principles, and requirements for an AMS based on ISO 55001.
